

CàMaiol

A wine, a region, a taste of excellence

Ca'Maiol is a winery in a unique grape growing zone, favored by the lake and soil of the Lugana region in the southern shore of Lake Garda. This is where the Trebbiano di Lugana vines have always produced the finest results. The story of Cà Maiol has always been linked to the Lugana DOP and has succeeded in understanding the potential of the terroir. Mainly, thanks to the vision and passion for new challenges from entrepreneur Walter Contato who, in 1967, founded this estate.

The indissoluble link between wine and its terroir

Lugana, an outstanding white wine that gets its distinctive characteristics from its native land. The southern shore of Lake Garda, with its benevolent climate and clay-influenced soil, is the ideal habitat to grow the indigenous Trebbiano di Lugana or Turbiana grape, a varietal that shows the affinity between a wine and its region.

Custodian of tradition

Walter Contato and other local vine-growers founded over 50 years ago the Producers' Consortium for Lugana DOC. This was the result of his love for this land and the highly-prized wines of the region. The Consortium has proven to be an invaluable organization that protects and promotes the excellence of this white treasure from Lake Garda.
